

A.I.R. SHIPPER™ TRAINING MANUAL

Comprehensive workbook intended for dangerous goods instructors and students alike. Used with Labelmaster's® A.I.R. Shipper™, this manual is an indispensable tool that provides the basis for effective employee training to exceed the standard and expectations of 49 CFR, the ICAO Technical Instructions and employers.

Spiral bound for easy classroom use, fully illustrated and cross referenced, A.I.R. Shipper™ Training Manual includes a model exam based on case histories of actual shipping examples, both routine and unusual. Used alone or under the supervision of a shipper-qualified trainer, the workbook will become a handy reference tool long after the student has passed the dangerous goods shipper exam.

A.I.R. SHIPPER™ TRAINING PROGRAM

This training program is developed by hazardous materials experts at Currie Associates Inc. It contains more than 140 computer color slides and a complete instructor's manual to guide the user through each slide. Experienced instructors using this systematic approach to employee training are quick to praise its proven simplified step-by-step approach. Designed to provide user flexibility, this program is divided into 10 modules that may be used individually for function-specific training or presented as a complete air training course. Slides may be added or deleted to customize the program. Examples, work projects and recommended test questions are included at the end of the book to verify employee qualifications. Modules include:

- 1) Applicability of Code, 2) Classification, 3) UN Numbers & Proper Shipping Name,
- 4) Packaging Type, 5) Consignment Procedures, 6) Construction, Testing & Marking of Packages, 7) Transport Operations—Airline, Responsibilities, 8) Exceptions & Special Situations, 9) Overpacks, 10) Appendix—Student Work Projects.

SHIPMATE™ ONLINE WEB-BASED TRAINING

This Web-based training program is designed to familiarize users with A.I.R. Shipper™ and to enable users to prepare dangerous goods shipments for air transport safely and effectively.

This A.I.R. Shipper™ Web-based training program provides users with the following:

- Familiarizes users with A.I.R. Shipper™, its construction and relationship to other regulatory references
- Enables users to select an appropriate basic description and identify the required marks, labels and packaging for a dangerous goods shipment intended for transport by air
- Provides users with useful tools, checklists and templates for preparing dangerous goods shipping papers and other required documentation
- Outlines and describes the shipper's and airline's responsibilities with respect to hazard communication, handling, loading, stowage and segregation of dangerous goods
- Describes the basic requirements for the preparation and transport of radioactive materials shipment by air
- Provides an effective tool for measuring comprehension of the training material through learning assessments
- Provides a Certificate of Completion upon successful completion of the course of instruction

The A.I.R. Shipper™ Web-based training program is divided into 12 separate modules, which include the Introduction and Assessment for Credit. This program meets the DOT hazardous materials transportation training requirements for General Awareness and Function-Specific (Air Transportation). Includes one free standard bound copy of A.I.R. Shipper™.

Ship It Right With A.I.R. Shipper™

The Shipper's Guide to Dangerous Goods Compliance

A.I.R. Shipper™ is the first shipper-friendly publication recognized by the International Civil Aviation Organization (ICAO). This publication helps you comply with international regulations for shipments of dangerous goods by air. It combines international dangerous goods air regulations with related national requirements, so you have all the information you need to ship safely and in compliance in one resource.

Steven Hunt, President of ShipMate, Inc., stated, *“I use A.I.R. Shipper™ in dangerous goods training and consulting, and my clients and I absolutely love it! A.I.R. Shipper™ is well-written, nicely formatted, easy to navigate and aligned with 49 CFR, Subchapter C and the ICAO Technical Instructions. I highly recommend it to all shippers, forwarders, carriers and other dangerous goods professionals.”*

Labelmaster® is confident that A.I.R. Shipper™ will help your company stay in compliance with dangerous goods regulations and increase shipping safety, accuracy and efficiency.

The features of A.I.R. Shipper™

- Developed in compliance with ICAO standards
- Chapter order is logical and follows UN Model Regulations, ICAO and IMO formats. Learning this format helps you navigate international regulatory publications
- Innovative pricing allows maximum distribution of A.I.R. Shipper™ within your shipping operations
- Cost-effective, quality product that promotes safety in dangerous goods shipping
- Dangerous Goods List (DGL) is quick and easy to use
- “How to Use” appendix helps you get the most out of the unique layout and features. Hazard and handling labels and markings shown in color
- Colored borders make finding important sections quick and make text easier to read
- High-quality paper allows highlighting without “show-through”
- Enhanced, easy-to-use packing instructions include descriptive titles, maximum quantity tables and specific applicable variations

New 2007 edition features

- Upgraded index includes cross-references of AIR, ICAO, 49 CFR and IDGR
- UN number cross-reference list identifies forbidden items, special provisions and airline emergency response codes
- List of proper shipping names, which are articles, added to generic and n.o.s. lists
- Documentation examples included for radioactive material
- Unique quick-reference guide helps users quickly find commonly used sections of the regulations
- Enhanced layout and upgraded tabs
- Section in appendix that covers how to use packing instructions
